

## Global Training Facility and Environmental Auditing Training Programme

### Agenda Item Overview

The aim of the agenda item is to review the progress and approve the environmental audit training programme to be delivered in 2013 in the global training facility hosted by the SAI of India in Jaipur.

1. **The SAI of India** will present the progress of the construction of the Global Training Facility (GTF) in Jaipur, India.
2. **The Chair** will present progress of the project. The project committee (co-leaders SAIs of Estonia and India, sub-committee members SAIs of Finland, Norway and USA) has developed the outline, including programme structure and session-of-the-glances of the training programme. The programme is designed in a way to incorporate the WGEA guidance materials and vast audit experience of SAIs. The participants' notes, instructors' guides and presentations will be developed by the facilitators and lecturers of the sessions.
3. Suggested timeline for the first training

Call for participants	December 2012
Registration deadline for the environmental training in GTF	May 2013
Environmental audit training based on the programme	November 2013

### Steering Committee members are invited to contribute by

- commenting the draft programme (including programme structure) and session-at-the-glances
- offering, if possible and of interest, their assistance in developing and/or delivering certain parts of the programme's sessions
- providing, upon availability, audit cases to be utilized in the training programme.

The Steering Committee is expected to discuss, comment and finally approve the programme outline (incl programme structure) and session-at-a-glances.

### Enclosure
