Buenos Aires, Argentina 6 – 10 November 2011.

PRESENTATION ON TRAINING MODULE-MINING

PRESENTATION OUTLINE

This presentation covers the pertinent components of the Training Binder on Mining(Training Module) which includes the following:

❑ Introductory Sheet

❑ Materials of the sessions (grouped under modules by sessions):

-Session- at –a-glance.

-Participant Notes.

-Instructor's Aids.

INTRODUCTORY SHEET

❑Introductory sheet of our training binder comprises of :

 -Environmental auditing and main audit types-In this training module the selected audit type is the Performance Audit-Environmental Audit-Mining.

INTRODUCTORY SHEET Cont….

❑Another module which is included in our binder is the environmental audit topic which has been broken down into three sessions which are:

❑ Session 1:Talks about background on mining for auditors

INTRODUCTORY SHEET Cont….

❑ Session two discusses the four steps approach to choose and design an audit.

❑ Session three covers the case studies with exercises on some of the mining topics.

Materials of the sessions :

Materials of the session includes :session – at- a- glance, participant notes and instructor's aids.

❑Session-at-a-glance:

This feature provides session learning objective,key teaching points and methods,equipment and other resources required for the training.

Materials of the sessions Cont…

- Session-at-a- glance in our binder comprises of four session titles:

  1. Performance audit and environmental auditing-mining.

  2.A background on mining for auditors.

  3.Four steps approach to choose and design an audit.

Materials of the sessions Cont…

4.Case studies with exercises on some of the mining topics.

Other materials for the session includes participants notes; these normally provide the participants with reference which they can use back on the job.

Materials of the sessions Cont…

- Normally these notes are characterised by overviews and learning objectives. Therefore, our binder will have the notes on: Performance audit and environmental auditing-mining, background on mining for auditors, four steps approach to choose and design an audit and case studies of the mining topics.

Materials of the sessions Cont…

- The final item in the materials for the session is the Instructor's aids which is there to support carrying out the training course.

Materials of the sessions Cont…

- Basically it includes documents like instructor's notes-These guides the instructor on how to deliverthe course and case studies for testing the knowledge of participants.
