Sharing

- In January, 2009, attended the 12th Meeting of INTOSAI WGEA.

The Chinese government...

- Set “eco-environment construction” as one of the ten measures to combat the financial crisis to spur domestic demands.

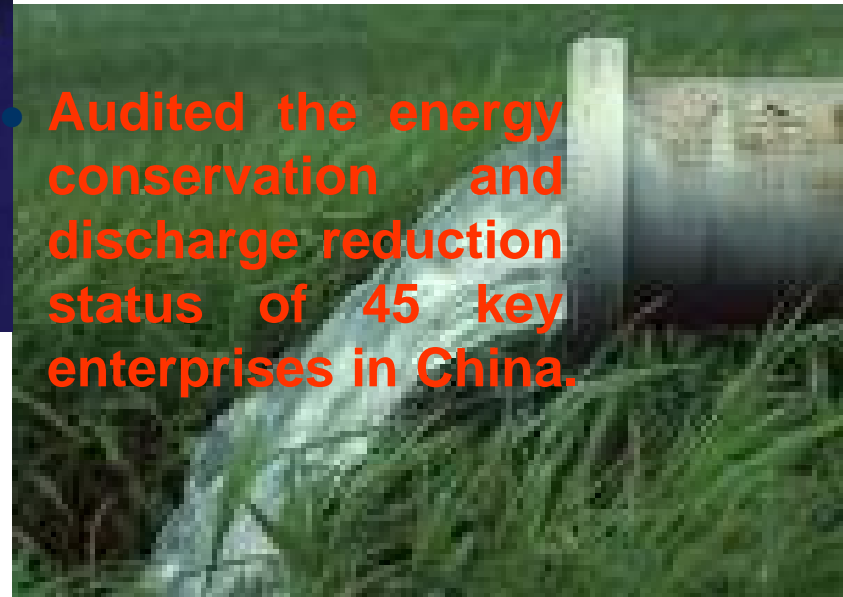

CNAO

- Audited water pollution control programs in 6 river valleys and the Bohai Sea.

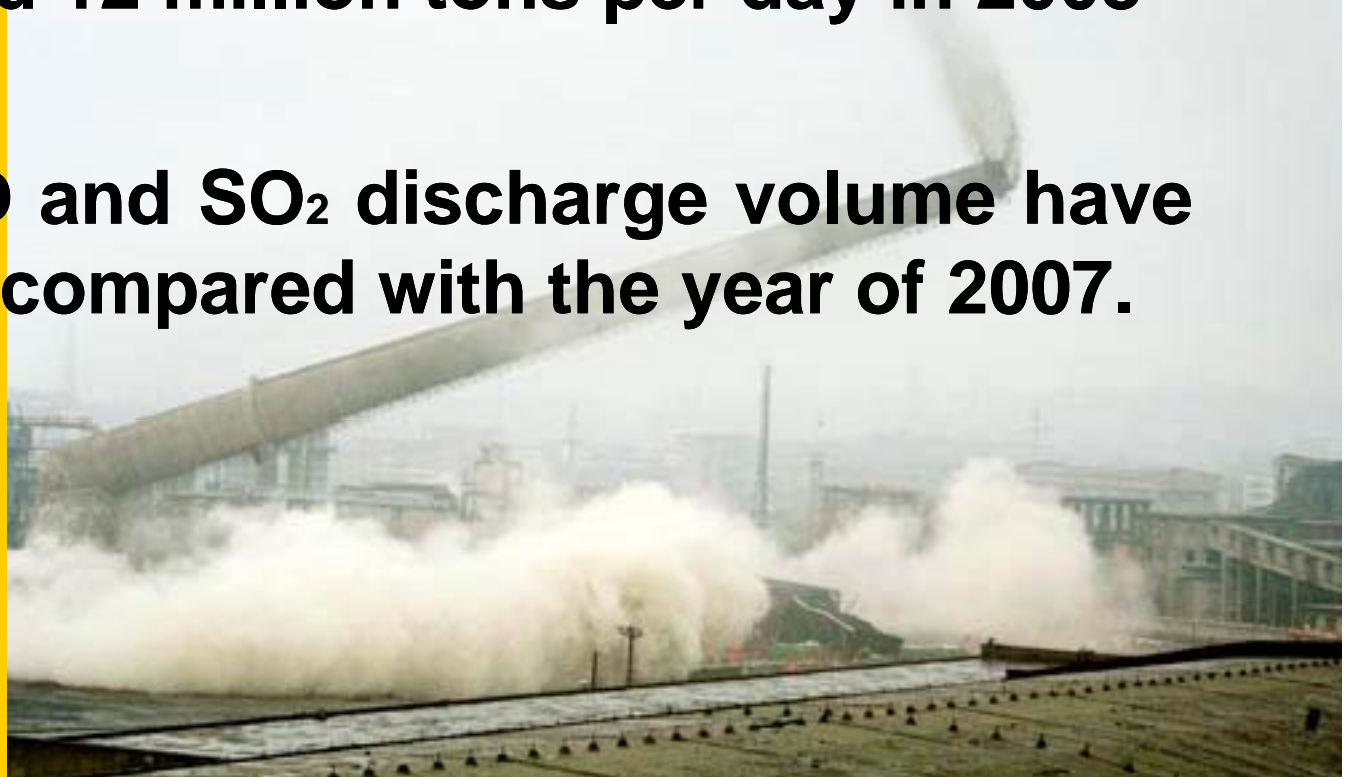

- Audited the energy conservation and discharge reduction status of 45 key enterprises in China.

What we have achieved...

- **The waste water processing capacity has increased 12 million tons per day in 2008**
- **The COD and SO₂ discharge volume have reduced compared with the year of 2007.**

Now, CNAO is...

- Organizing local audit offices to conduct cooperative audits on water pollution control programs for three rivers and one lake.

In the coming years...

- Strengthen the information exchange among SAIs through the website;
- Encourage cooperative audits within ASOSAI;
- Facilitate the implementation of Working Plan;
- Prepare for the 13th meeting of INTOSAI WGEA;
- Fulfill the duty as the chair of Theme II of XX INCOSAI.
