

XXV INCOSAI Side Event

Innovations in Environmental Auditing and Launch of Summary Report from the Cooperative Audit on Climate Change Adaptation Actions

Wednesday 29 October, at 16:00–17:00, Meeting Room El Salam

This session spotlights the latest innovations within the INTOSAI WGEA community, including the agile Audit Clinic support framework for environmental and climate audits. We will also launch the summary report from the global cooperative audit on Climate Change Adaptation Actions. A high-level panel featuring Auditors General will discuss the key findings of the adaptation action audits and explore future directions in environmental auditing, with a special focus on the needs of Small Island Developing States (SIDS).
